

Your maths homework cycle

Two homeworks a week, four over the two-week timetable. Here is what happens in each lesson, and how every homework helps you hit your targets.

Your homework is due when the next one is set, so you only ever have one maths homework at a time

Week 1 you have your feedback form

FIRST LESSON OF THE WEEK	
START OF LESSON	Mark last week's retrieval homework yourself or with a partner.
HOMEWORK SET	Feedback action homework. Work on the targets on your feedback form in your exercise book, then write a short comment in an Evidence column.

LAST LESSON OF THE WEEK	
START OF LESSON	Your feedback action work is checked.
HOMEWORK SET	Retrieval homework BIG TICKET Mixed questions on topics you have learnt before. Hand it in with your feedback form.

Week 2 your teacher has your form

FIRST LESSON OF THE WEEK	
START OF LESSON	Hand in your retrieval homework and feedback form . Your teacher marks it and writes new feedback and targets.
HOMEWORK SET	Teacher's choice task , for example a Dr Frost task or revising for a test.

LAST LESSON OF THE WEEK	
START OF LESSON	Your teacher checks the task has been done.
HOMEWORK SET	Retrieval homework BIG TICKET Mixed questions on topics you have learnt before. You will mark this one yourself or with a partner.

... and back to Week 1, with your feedback form and new targets returned to you.

Working on your targets

1. Read your target on your feedback form (you will never have more than 5).
2. Find the topic in your **scheme of work** and click the link to **westiesworkshop.com**.
3. Watch a video, then try the worksheets and check your answers. Try past paper questions by topic too.
4. Show your work in your exercise book and write a comment in the **Evidence** column.
5. Still stuck? Come to a **workshop** and bring your form.

Golden rules

- Never leave a question blank.
- Stuck? Get help **before** the lesson it is due, not as you walk in.
- Too busy one week? Ask your teacher before it is due.

How long should it take?

Year 7 15-20 mins	Year 8 20-25 mins	Year 9 25-30 mins	Years 10-11 ~30 mins
--------------------------------	--------------------------------	--------------------------------	-----------------------------------

Maths workshops: open to everyone

Monday lunch and Tuesday after tea: Years 7-10 priority

Wednesday lunch and Thursday after tea: Years 11-13 priority

"Lessons as inspiring as the surroundings"
